

PRESS RELEASE

## **SURVEY AND CONSULTING SERVICES – LARGE WIND TURBINE MARKET**

**PLENR is pleased to announce it has joined LOUIS DREYFUS ARMATEURS Group to offer a new range of industrial services in the field of surveys and consulting for the large wind turbines market**

Paimpol, 24.07.2019 - PLENR, a company founded by Jean-Jacques VINAT, has been active since 2010 in the field of technical support for development, construction and operation of wind farms.

PLENR provides advice and assistance to companies, more particularly developers, producers and operators, through assistance to contract owners in the construction phase, as well as assistance and expertise services during development and exploitation.

PLENR's integration into LOUIS DREYFUS ARMATEURS Group (LDA) will allow the industrialization of the software and technical solutions developed by PLENR and help create an international dimension. In addition, PLENR's teams will bring their skills and nearly 20 years of experience in the large wind turbine sector to the Marine Industrial Solutions Division of the LDA Group, which already provides maintenance and operation services to offshore wind farms.

Through the acquisition of PLENR SAS by LDA, Jean-Jacques VINAT is now responsible for the SMART ENERGY SERVICES activities within the industrial division.
